2.6 DISCLAIMER IN RESPECT OF RATING AGENCIES

Ratings are opinions on credit quality and are not recommendations to sanction, renew, disburse or recall the concerned bank facilities or to buy, sell or hold any security. The Rating Agency has based its ratings on information obtained from sources believed by it to be accurate and reliable. The Rating Agency does not, however, guarantee the accuracy, adequacy or completeness of any information and is not responsible for any errors or omissions or for the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by the Rating Agency have paid a credit rating fee, based on the amount and type of bank facilities/instruments.

2.7 ISSUE OF DEBENTURES IN DEMATERIALISED FORM

The Debentures will be issued in dematerialised form. The Issuer has made arrangements with the Depositories for the issue of the Debentures in dematerialised form. Investors will have to hold the Debentures in dematerialised form as per the provisions of Depositories Act. The Issuer shall take necessary steps to credit the Debentures allotted to the beneficiary account maintained by the investor with its depositary participant. The Issuer will make the Allotment to investors on the Deemed Date of Allotment after verification of the Application Form, the accompanying documents and on realisation of the application money.

SECTION 3: RISK FACTORS

The following are the risks relating to the Company, the Debentures and the market in general envisaged by the management of the Company. Potential investors should carefully consider all the risk factors in this Information Memorandum and/or the Private Placement Offer Cum Application Letter for evaluating the Company and its business and the Debentures before making any investment decision relating to the Debentures. The Company believes that the factors described below represent the principal risks inherent in investing in the Debentures, but do not represent that the statements below regarding risks of holding the Debentures are exhaustive. The ordering of the risk factors is intended to facilitate ease of reading and reference and does not in any manner indicate the importance of one risk factor over another. Investors should also read the detailed information set out elsewhere in this Information Memorandum and/or the Private Placement Offer Cum Application Letter and reach their own views prior to making any investment decision.

3.1 REPAYMENT IS SUBJECT TO THE CREDIT RISK OF THE ISSUER.

Potential investors should be aware that receipt of the principal amount, (i.e. the redemption amount) and any other amounts that may be due in respect of the Debentures is subject to the credit risk of the Issuer. Potential investors assume the risk that the Issuer will not be able to satisfy their obligations under the Debentures. In the event that bankruptcy proceedings or composition, scheme of arrangement or similar proceedings to avert bankruptcy are instituted by or against the Issuer, the payment of sums due on the Debentures may not be made or may be substantially reduced or delayed.

3.2 THE SECONDARY MARKET FOR DEBENTURES MAY BE ILLIQUID.

The Debentures may be very illiquid and no secondary market may develop in respect thereof. Even if there is a secondary market for the Debentures, it is not likely to provide significant liquidity. Potential Investors may have to hold the Debentures until redemption to realize any value.

3.3 CREDIT RISK & RATING DOWNGRADE RISK

The Rating Agency has assigned the credit ratings to the Debentures. In the event of deterioration in the financial health of the Issuer, there is a possibility that the Rating Agency may downgrade the rating of the Debentures. In such cases, potential investors may incur losses on revaluation of their investment or may need to make provisions towards sub-standard/non-performing investment as per their usual norms.

3.4 CHANGES IN INTEREST RATES MAY AFFECT THE PRICE OF NCDS.

All securities where a fixed rate of interest is offered, such as this Issue are subject to price risk. The price of such securities will vary inversely with changes in prevailing interest rates, i.e. when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of prevailing interest rates. Increased rates of interest, which frequently accompany inflation and/or a growing economy, are likely to have a negative effect on the pricing of the Debentures.

3.5 TAX CONSIDERATIONS AND LEGAL CONSIDERATIONS

Special tax considerations and legal considerations may apply to certain types of investors. Potential Investors are urged to consult with their own financial, legal, tax and other advisors to determine any financial, legal, tax and other implications of this investment.

3.6 ACCOUNTING CONSIDERATIONS

Special accounting considerations may apply to certain types of taxpayers. Potential investors are urged to consult with their own accounting advisors to determine implications of this investment.

3.7 SECURITY MAYBE INSUFFICIENT TO REDEEM THE DEBENTURES

In the event that the Company is unable to meet its payment and other obligations towards Investors under the terms of the Debentures, the Debenture Trustee may enforce the Security as per the terms of security documents, and other related documents. The Investor's recovery in relation to the Debentures will be subject to (i) the market value of such secured property, (ii) finding willing buyers for the Security at a price sufficient to repay the potential Investors amounts outstanding under the Debentures. The value realised from the enforcement of the Security may be insufficient to redeem the Debentures.

3.8 MATERIAL CHANGES IN REGULATIONS TO WHICH THE ISSUER IS SUBJECT COULD IMPAIR THE ISSUER'S ABILITY TO MEET PAYMENT OR OTHER OBLIGATIONS.

The Issuer is subject generally to changes in Indian law, as well as to changes in government regulations and policies and accounting principles. Any changes in the regulatory framework could adversely affect the profitability of the Issuer or its future financial performance, by requiring a restructuring of its activities, increasing costs or otherwise.

3.9 LEGALITY OF PURCHASE

Potential investors of the Debentures will be responsible for the lawfulness of the acquisition of the Debentures, whether under the laws of the jurisdiction of its incorporation or the jurisdiction in which it operates or for compliance by that potential investor with any law, regulation or regulatory policy applicable to it.

3.10 POLITICAL AND ECONOMIC RISK IN INDIA

The Issuer operates only within India and, accordingly, all of its revenues are derived from the domestic market. As a result, it is highly dependent on prevailing economic conditions in India and its results of operations are significantly affected by factors influencing the Indian economy. An uncertain economic situation, in India and globally, could result in a further slowdown in economic growth, investment and consumption. A slowdown in the rate of growth in the Indian economy could result in lower demand for credit and other financial products and services and higher defaults. Any slowdown in the growth or negative growth of sectors where the Issuer has a relatively higher exposure could adversely impact its performance. Any such slowdown could adversely affect its business, prospects, results of operations and financial condition.

3.11 RISKS RELATED TO THE BUSINESS OF THE ISSUER

A. If the Issuer is unable to control the level of non-performing loans ("NPAs") in the future, or if the Issuer's loan loss reserves are insufficient to cover future loan losses, the financial condition and results of operations may be materially and adversely affected.

The Client Loans are secured against assets / equipment on lease and incremental cash collateral, where applicable. There may be uncertainty on the client's ability to fulfil its loan obligations. Such non-performing or low credit quality loans can negatively impact our results of operations.

As on March 31, 2020, the gross NPA was Rs. Nil crores on a gross portfolio of Rs. 330 crores.

The Issuer cannot assure that the Issuer will be able to effectively control and reduce the level of NPAs in its total loan portfolio. The amount of the Issuer's reported non-performing loans may increase in the future as a result of growth in the total loan portfolio, and also due to factors

beyond the Issuer's control. Failure to manage NPAs or effect recoveries will result in operations being adversely affected.

The Issuer's current loan loss reserves may not be adequate to cover an increase in the amount of NPAs or any future deterioration in the overall credit quality of the Issuer's total loan portfolio. As a result, if the quality of the Issuer's total loan portfolio deteriorates the Issuer may be required to increase the loan loss reserves, which will adversely affect the Issuer's financial condition and results of operations.

B. The Issuer is exposed to certain political, regulatory and concentration of risks

Due to the nature of its operations, the Issuer is exposed to political, regulatory and concentration risks. The Issuer believes a mitigant to this is to expand its geographical reach and may consequently expand its operations other states. If it is not effectively able to manage such operations and expansion, it may lose money invested in such expansion, which could adversely affect its business and results of operations.

C. Large scale attrition, especially at the senior management level, can make it difficult for the Issuer to manage its business.

If the Issuer is not able to attract, motivate, integrate or retain qualified personnel at levels of experience that are necessary to maintain the Issuer's quality and reputation, it will be difficult for the Issuer to manage its business and growth. The Issuer depends on the services of its executive officers and key employees for its continued operations and growth. In particular, the Issuer's senior management has significant experience in the financial services industries. The loss of any of the Issuer's executive officers, key employees or senior managers could negatively affect its ability to execute its business strategy, including its ability to manage its rapid growth. The Issuer's business is also dependent on its team of personnel who directly manage its relationships with its members. The Issuer's business and profits would suffer adversely if a substantial number of such personnel left the Issuer or became ineffective in servicing its members over a period of time. The Issuer's future success will depend in large part on its ability to identify, attract and retain highly skilled managerial and other personnel. Competition for individuals with such specialized knowledge and experience is intense in this industry, and the Issuer may be unable to attract, motivate, integrate or retain qualified personnel at levels of experience that are necessary to maintain its quality and reputation or to sustain or expand its operations. The loss of the services of such personnel or the inability to identify, attract and retain qualified personnel in the future would make it difficult for the Issuer to manage its business and growth and to meet key objectives.

D. The Issuer's business and results of operations would be adversely affected by strikes, work stoppages or increased wage demands by employees

The employees are not currently unionized. However, there can be no assurance that they will not unionize in the future. If the employees unionize, it may become difficult to maintain flexible labour policies, and could result in high labour costs, which would adversely affect the Issuer's business and results of operations.

E. The Issuer's insurance coverage may not adequately protect it against losses. Successful claims that exceed its insurance coverage could harm the Issuer's results of operations and diminish its financial position

The Issuer maintains insurance coverage of the type and in the amounts that it believes are commensurate with its operations and other general liability insurances. The Issuer's insurance policies, however, may not provide adequate coverage in certain circumstances and may be subject to certain deductibles, exclusions and limits on coverage.

In addition, there are various types of risks and losses for which the Issuer does not maintain insurance, such as losses due to business interruption and natural disasters, because they are either uninsurable or because insurance is not available to the Issuer on acceptable terms. A successful assertion of one or more large claims against the Issuer that exceeds its available insurance coverage or results in changes in its insurance policies, including premium increases or the imposition of a larger deductible or co-insurance requirement, could adversely affect the Issuer's business, financial condition and results of operations.

F. Issuer requires certain statutory and regulatory approvals for conducting business and failure to obtain or retain them in a timely manner, or at all, may adversely affect operations.

NBFCs in India are subject to strict regulation and supervision by the RBI. The Issuer requires certain approvals, licenses, registrations and permissions for operating its business, including registration with the RBI as a NBFC pursuant to Section 45-IA of the RBI Act, 1934. Further, such approvals, licenses, registrations and permissions must be maintained/renewed over time, applicable requirements may change and the Issuer may not be aware of or comply with all requirements all of the time. In particular, the Issuer is required to obtain a certificate of registration for carrying on business as a NBFC that is subject to numerous conditions. Additionally, RBI has issued detailed directions on prudential norms inter alia prescribing guidelines on income recognition, asset classification and provisioning requirements applicable to NBFCs, exposure norms, disclosures in the balance sheet, requirement of capital adequacy, restrictions on investments in land and building and unquoted shares besides others. In addition, its branches are required to be registered under the relevant shops and establishments laws of the states in which they are located. The shops and establishments laws regulate various employment conditions, including working hours, holidays and leave and overtime compensation. If the Issuer fails to obtain or retain any of these approvals or licenses, or renewals thereof, in a timely manner, or at all, its business may be adversely affected. If the Issuer fails to comply, or a regulator claims that it has not complied, with any of these conditions, the Issuer's certificate of registration may be suspended or cancelled, and it shall not be able to carry on such activities. If the Issuer fails to comply with any directions issued applicable on NBFCs and fails to maintain the status of NBFC it may attract penal provisions under the RBI Act, 1934 for non-compliance. The penal action can also result in RBI cancelling the certificate of registration issued to the NBFC.
